

# Ceramic Trimmer Capacitors

## SGC3 Series

### Series Overview:

The SGC3 Series Chip Trimmer Capacitors are miniature ultra thin surface mounted devices intended for telecom and microwave projects requiring miniaturization. Super thin and dust proof, these sealed capacitors are ideal for designs requiring fine adjustment and very minimal capacity drift.

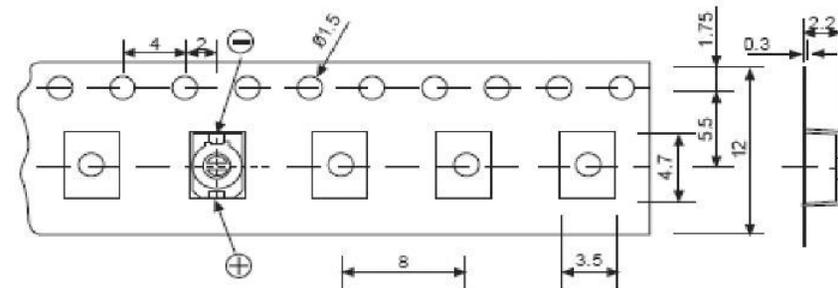

### Feature Highlights:

- A miniature ultra thin surface mounted device with external dimensions of 3.2 (W) x 4.5 (L) x 1.5 (H)
- Constructed with high temperature liquid-crystal polymer for superior durability and low dielectric loss
- Sealed construction prevents penetration of flux and dust
- Designed for reflow soldering
- Mountable by an automatic placer
- Standard tape and reel packaging
- Easy adjustment using conventional screw driver
- Customized lead configurations available
