

BREXIT POLICY

DAU Components Ltd has reviewed the UK Governments White Paper 'The United Kingdom's exit from, and new partnership with, the European Union' Chapter 8 – Ensuring free trade with European Markets.

Until such time as there is agreement between the United Kingdom & the European Union, we cannot provide a definitive Brexit Policy however to mitigate supply-chain risk we have put in place the following policy.

1. We are happy to discuss holding buffer stock on a case by case basis
2. As the vast majority of our orders are to customer's specification, we are unable to hold contingency stock against orders, unless previously discussed
3. DAU are actively developing new trading partners and relationships that seek to negate and lessen the impact of a hard Brexit
4. As many of our partner suppliers are from outside of the EU zone, we anticipate that we will be less adversely affected than other distributors whose supply chain is purely within the EU
5. As yet, a Customs Union agreement has not been negotiated post Brexit, we would ask our customers to consider reviewing stock requirements at an earlier stage to mitigate any delays caused by custom controls from the EU to the UK
